BUSINESS PERFORMANCE

/ Operating backdrop during FY25

Economic recovery stalled; headwinds persist

The transformation programme is providing resilience and positioning MOVE strongly for economic upswing

Economic environment

- Biggest recessionary environment since early 1990s
- Global uncertainty affecting exports and business confidence
- High interest rates impacting business investment
- Cost of living pressures, rising unemployment and interest rates all impacting consumer spend and reducing freight and warehouse demand

Sector

- Reduced demand putting pressure on volumes and aggressive pricing strategies

Cost pressures

- Inflation moderating, however, cost pressures remain, particularly for fuel and other operational expenses

Infrastructure and weather events

- Disruption to inter-island transport due to ageing ferries and increasing out-of-service
- Road, rail and ferry disruption from regional flooding and extreme weather events

/ Freight and Fuel

**Significant NEBT improvement now being delivered.
Four consecutive quarters of earnings and GM% growth**

- Jeff Vincent commenced as GM in January 2025
- YOY revenue growth despite low demand and a competitive market
- Gross margin improvement - momentum over four consecutive HYs
- 90% improvement in NEBT loss
- Positive NEBT in 4Q25 - first time in two years. Driven by gross margin expansion (revenue growth + cost out and efficiencies)
- Stronger partnerships with key customers; winning new business
- Priority focus on utilisation and operational efficiency delivering good improvements, particularly in 2H25
- Better use of data driving business insights and decisions
- Fuel service continues to perform well, with strong foundational customer partnership

Revenue: \$188.8m
Normalised EBT: \$(1.7)m

Fuel business transferred from Contract Logistics (now Warehousing) to Freight segment in FY25. FY24 has been restated to include Fuel.

/Warehousing

Reset of business underway with new leadership. Well positioned to deliver quality, cost effective solution with national network and integrated freight offer

- Poor result in a challenging market - revenue, earnings and margin squeeze driven by excess sector capacity, weak demand and intensifying competitor and pricing pressure
- Marc Blackburn commenced as GM in February 2025
- Focus on customer partnerships, service excellence and productivity:
 - Strong improvement in Picked In Full, Delivered on Time
 - Retention of key customers and new business commencing 1H26
 - Rightsizing teams and sites to match workflow demands
 - Robust processes and controls alongside enhanced reporting

Revenue: \$53.7m
Normalised EBT: \$(5.8)m

Fuel business transferred from Contract Logistics (now Warehousing) to Freight segment in FY25. FY24 has been restated to exclude Fuel.

/ Specialist

Consistently strong performance with healthy pipeline of work in place.

- YOY increases in revenue, earnings and margin
- Soft market activity continuing, particularly affecting construction and infrastructure projects. Some projects moved into FY26 year
- Energy generation projects picking up - considered experts in this sector
- Increasing work undertaken on projects in the Pacific Islands with further potential
- Credible and highly regarded team, preferred provider for many specialised and heavy haulage projects

Revenue: \$18.2m
Normalised EBT: \$2.3m

/ International

Oceans business (trans-Tasman shipping) building momentum with strong customer partnerships; Freight forwarding and other services down YOY

Oceans

- Moved to time charter model with faster, larger vessel - commencing from September 2024. Delivering increased reliability and capacity
- Foundational contracted customers, utilising the majority of capacity with strong interest outside of the existing customer base
- Includes \$1.1m in costs relating to disposal of the Atlas Wind. Excluding these costs, Normalised EBT would be \$1.4m

Other International services

- Lower market activity impacting demand, particularly in Australia, which has softened revenues and impacted margins

Revenue: \$25.7m
Normalised EBT: \$0.3m

FY25 includes \$1.1m costs related to disposal of Atlas Wind vessel

FINANCIAL RESULTS

FY25 Group Summary

\$Millions	FY25	FY24

1. Normalised EBITDA and Normalised EBT exclude non-controlling interest and non-trading adjustments of \$4.2m pre-tax related to asset impairment, settlement & restructuring costs. FY25 EBITDA and EBT before adjustments was \$38.8m and \$(14.2)m respectively
2. Attributable to owners of the company

Margin gains and earnings improvement across majority of businesses

- YOY improvement in earnings, margins and operating cashflow
- Delivered on FY25 financial targets
- Structural benefits and value from transformation plan being realised
- Retained sales revenue in face of weak market
- 61% improvement in Normalised EBT, up \$15.7m on prior year
- Net Loss After Tax improved by \$32.5m

Results include \$1.1m cost related to disposal of Atlas Wind vessel

/ Broad, structural reduction in operating expenses

~\$27m reduction in operating expenses YOY

Structural cost out programme delivering value:

- People cost savings of ~\$15m
- Reduced transport costs as a percentage of Freight revenue (down 5.1pp)
- Strong focus on overheads and efficiencies generating approx. \$12m in saving
- Large proportion of property lease costs are fixed
- Trading costs are primarily the shipping operating costs

/ Gross Margin

Gross Margin %: +4.1pp
Gross Margin \$: up 13.4%

- YOY improvement in gross margin % and \$, despite relatively flat revenue result
- Driven by effective cost out and efficiency programme
- Creating stronger operating leverage for when demand recovers
- Increased activity will drive further gross margin expansion

YOY Quarterly Gross Margin Improvement

Improvement in earnings

Normalised EBT +61%, EBT +69%

FY25 Normalised EBT excludes non-controlling interest and non-trading adjustments of \$4.2m pre-tax related to asset impairment, settlement & restructuring cost (FY24: \$19.7m). Further details included in appendix to this presentation.

Strongest quarterly NEBT result in 2 years

- Four consecutive quarters of NEBT improvement
- Focus on structural cost out, productivity and efficiency driving gains
- Three of four businesses delivering improved revenue and NEBT; Warehousing the exception with re-set underway

Funding and capital

- Successful new funding partnerships established in August 2024 - combination of bank facility and invoice finance funding – combined facility of up to \$33m
- February 2025 - extended our bank facility to August 2026, strong partnership with ANZ
- Board continues to closely monitor capital requirements and balance sheet flexibility to ensure transformation opportunities can be maximised
- Prudent approach to capital expenditure with sale of surplus/aged fleet being a focus
- Continued strong working capital ratio
